Subject: Convoy demonstrations

Good afternoon
I just got off a call with WPS
The target of today's protest was the Bluewater Bridge. I was just informed by EMO that the 402 is now closed. I think it was closed by OPP and not by a blockade. There is concern based on some limited intelligence the convoy will be or is heading to Windsor today. Earlier intel indicated that the bridge was going to be targeted Monday.
Police will be attempting to keep the College Avenue intersection and Northwood intersection open. If they cannot then I will relocate one of my rigs to the Tillston Armories so that I can maintain service west of the bridge
I spoke with the Chief and Inspector Crowley and asked that they keep us advised, particularly if they need anything from the City.
If warranted Windsor Police will use the EOC for a command center.
I don't have any more info at this time but will relay anything I get

STEPHEN LAFORET, MPA(M), CMM III Fire Service Executive
